# BIC Meeting of January 16, 2013 

Agenda Item \#7

DATE: January 16, 2013
TO: Honorable Angus McCarthy, President
Honorable Members of the Building Inspection Commission
FROM: Tom C. Hui, S.E. Im C. Hecir
Acting Director
SUBJECT: Proposed FY 2013-14 and FY 2014-15 Budgets

At the January 16, 2013 meeting of the Building Inspection Commission, we will begin discussing the Department of Building Inspection's (DBI) proposed FY 2013-14 and FY 2014-15 budgets. As you may recall, last year the Board of Supervisor's approved a budget for FY 2013-14 during their two year budget planning cycle. The starting point for this two year budget cycle is therefore the budget that was already approved for FY 2013-14 (Base). We are proposing changes to the FY 2013-14 budget and a new budget for FY 2014-15.

As is communicated at the Commission meetings, current year revenues are $12 \%$ greater than budgeted. Many of the projects that are currently under construction were in the pipeline. We continue to see new filings for large high rises and tenant improvements. We also expect construction to pick up in the Bayview and on Treasure Island in the next year. I am proposing a budget with additional staff to meet the existing and forecasted increase in construction activity. The proposed budgets also fund increases in staff training and Community Outreach activities, continuation of the vehicle replacement program, implementation of a tenant improvements program at 1660 Mission to improve service delivery and effectiveness of our staff, and seed funding for the Repair and Demolition Fund.

## Departmental Goals and Strategic Issues Used in Developing the Proposed Budget

In order to be consistent with the City's budget practices, we have created a budget based on the following overarching mission and goals approved by the Commission and found in the Business Process Reengineering (BPR) study:

- Ensure effective enforcement by funding positions, throughout the organization, required to meet the continuing increase in construction activity.
- Efficient provision of services including replacing vehicles, remodeling the building, and increasing Community Outreach.
- $\quad$ Safe and fair enforcement of building codes and provision of services including ensuring our staff is properly trained.

January 16, 2013
Proposed FY 2013-14 and FY 2014-15 Budgets
Page 2

## Revenues

The Department's financial picture has improved significantly from the major downturn in the construction industry which began in FY 2008-09. As we have been reporting, the projection for the current year is $12 \%$ greater than the FY 2012-13 budget. The economic recovery is expected to continue into FY 2013-14 and we expect to exceed the FY 2013-14 Base budget approved by the Board. The proposed FY 2013-14 budget projects that the revenue for charges for services remains flat at our FY 2012-13 projection, but includes $\$ 3$ million from the operating fund balance for projects and is an increase of 5\% over the current year projection. The proposed FY 2014-15 budget projects a $3 \%$ increase in charges for services, but a reduction in the use of operating fund balance to $\$ 2.4$ million, and is an increase of 1\% over the proposed FY 2013-14 budget.

We are uncertain as to whether the Impact Fee Deferral Program will be extended by the Board of Supervisors after its sunset in July 2013. If the deferral program is eliminated, the Department may see a decrease in large projects over the next 2 years.

Percentage Increase

There are no fee increases proposed for either year. The FY 2013-14 proposed budget reflects a decrease in the fees for hard copy prints consistent with the direction of the Sunshine Task Force. This fee legislation is currently under consideration by the Board of Supervisors.

Attachment A - Summary by Department and Summary by Division provides a summary of expense requests.

The major changes in expenditures between fiscal years are as follows:

| $\begin{array}{l}\text { Expenditure } \\ \text { Category }\end{array}$ | $\begin{array}{l}\text { FY 2013-14 Proposed Budget vs. } \\ \text { the FY 2013-14 Approved Budget }\end{array}$ | $\begin{array}{l}\text { FY 2014-15 Proposed Budget vs. the } \\ \text { FY 2013-14 Proposed Budget }\end{array}$ |
| :--- | :--- | :--- |
| Salaries | $\begin{array}{l}\text { Increase due to (1) 6.93 FTEs, 9 } \\ \text { positions, proposed for FY 2013-14 } \\ \text { in addition to the 4.62 new FTEs, 6 } \\ \text { positions, already approved in the } \\ \text { FY 2013-14 Base Budget; (2) } \\ \text { reinstatement of standby pay for } \\ \text { inspectors assigned to respond to } \\ \text { emergency situations on evenings } \\ \text { and weekends, and (3) funding for } \\ \text { engineering interns. }\end{array}$ | $\begin{array}{l}\text { Increase due to (1) annualization of } \\ \text { positions proposed in FY 2013-14, (2) } \\ \text { addition of 2.31 FTE (3 positions), and } \\ \text { (3) funding for engineering interns. }\end{array}$ |
| No negotiated wage increases are |  |  |
| assumed in this year, all contracts will |  |  |
| be open. |  |  |\(\left.\} \begin{array}{l}Attachment B provides a list of new <br>

positions and additional justification.\end{array}\right\}\)

January 16, 2013
Proposed FY 2013-14 and FY 2014-15 Budgets
Page 5

| Expenditure <br> Category | FY 2013-14 Changes From the FY <br> 2012-13 Budget | FY 2014-15 Changes From the FY <br> 2013-14 Budget |
| :--- | :--- | :--- |
| Professional and <br> Specialized Services | Increases due to (1) additional level <br> of outside technical assistance for IT <br> projects, (2) a training contract for <br> Housing Inspectors on recognizing <br> and referring individuals with <br> mentally health issues found in <br> SROs and other inspection sites, <br> and (3) one year funding for <br> continued exam, recruitment and <br> training by DHR to ensure hiring is <br> completed in a timely manner. | Maintains FY 2013-14 levels with the <br> exception of the DHR funding. |
| Increases due to (1) MTA parking <br> placards for the DBI fleet based on <br> Services - <br> increases for the previous year, and <br> Equipment <br> (2) two parking passes for <br> downtown garages for inspectors <br> who will exceed the maximum <br> allowable time on the meters due to <br> business reasons. | Reflects projected annual increase by <br> MTA for parking placards. |  |
| City Grant Program | Increases due to a 20\% growth in <br> the demand for counseling, <br> education, mentoring and mediation <br> services citywide in various <br> languages to residential landlords <br> related to compliance and violation <br> abatement of the San Francisco <br> Housing Code as part of the Code <br> Enforcement Outreach Program. | Maintains FY 2013-14 levels. |
| Increases due to one-time costs (1) <br> replacement of task and public <br> chairs that are worn out and <br> deteriorating, (2) replacement of <br> equipment used by the public, and <br> (3) supplies and code books for new <br> employees. The increase also due <br> to ongoing costs for (1) prescription <br> safety glasses, (2) safety boots, and <br> (3) implementation of the Employee <br> Recognition Program. |  |  |
| Eliminates the one-time costs. |  |  |

| Expenditure Category | FY 2013-14 Changes From the FY 2012-13 Budget | FY 2014-15 Changes From the FY 2013-14 Budget |
| :---: | :---: | :---: |
| Equipment | Increases due to (1) 3 new environmentally conscious vehicles for inspectors in addition to the 10 vehicle replacements in the base budget, and (2) a large capacity van to act as an emergency vehicle to replace the motor home, equipped with a winch, emergency lights, generator, and multi-capacity charging. <br> Attachment E provides details on the vehicle requests. | Returns to the FY 2012-13 level for replacement of 10 vehicles per year. <br> Attachment E provides details on the vehicle requests. |
| Work orders | Increases due to (1) support of work done by the Department of Environment in implementation of the Construction and Demolition Debris Recovery Program until a surcharge is established, and (2) as needed technical services from DPW. | Maintains FY 2013-14 levels with the exception of the work order for the Department of Environment. |
| Transfer to Repair and Demolition | The balance in the Repair and Demolition Fund is not sufficient to handle the current increase in emergency orders. A one-time transfer from the operating fund to the Repair and Demolition Fund is proposed. | No additional funding is proposed for FY 2014-15. |
| Transfer to projects Tenant Improvement | Funding is proposed for the 1660 Mission Tenant Improvement project. The improvements are primarily for the $1^{\text {st }}, 3^{\text {rd }}, 4$ th floors to improve customer and employee flow. | Maintains FY 2013-14 levels. |
| Transfer to projects Records <br> Management Scanning | Annual funding of the contract for scanning of plans. | Maintains FY 2013-14 levels. |
| Transfer to projects Conversion of Records | Annual funding of the contract for digitization of records. | Maintains FY 2013-14 levels. |

Attachment F provides the details of every division's budget request.

## Conclusion

I am available to discuss any questions or issues you have about the proposed FY 2013-14 and FY 2014-15 budgets, and I look forward to presenting the budgets to you.

| BID | 6331 | Building Inspector | 2 | 1.54 | 107,624 | 165,740 | 215,247 |  |  |  |  | To cover increased workload with inspections and to have dedicated staff for complaints. There is a backlog of complaints in different stages of being resolved, and the number of inspections has increased over the last few years. |
| BID | 6333 | Senior Building Inspector | 1 | 0.77 | 118,659 | 91,367 | 118,659 |  |  |  | - | To cover increased workload and correct the span of control with the inspectors added over the last few years. The recommended span of control is 5 inspectors for every senior inspector, the division currently has 8 inspectors for every senior. |
| CES | 6331 | Building Inspector | 1 | 0.77 | 107,624 | 82,870 | 107,624 |  |  |  | - | To cover increased workload. The number of complaints has increased over the last few years. When complaints can not be resolved with the Building, Electrical, Plumbing, and Housing Divisions they are escalated to the Code Enforcement Division for continued follow-up. The number of cases referred to the Code Enforcement Division is continuting to grow faster than the resources. |
| CSD | 1408 | Principal Clerk | 1 | 0.77 | 70,213 | 54,064 | 70,213 |  |  |  | - | To help the Division maintain a reasonable scanning and QCing schedule, will allow current staff to focus on performing the complex records research, relieve current staff of continuous counter assistance, provide for staff time off, training, and special projects, etc. |
| EID | 6249_C | Senior Electrical Inspector | 1 | 0.77 | 118,659 | 91,367 | 118,659 |  |  |  | - | To address additional workload, and span of control issues related to increased staffing. The recommended span of control is 5 inspectors per Senior and the Division will have 7 Inspectors per Senior when it is fully staffed in FY 2013-14. |
| STR | 1406 | Senior Clerk | 1 | 0.77 | 53,180 | 40,949 | 53,180 |  |  |  | - | To address the the CAPSS/soft story retrofit program |

Department of Building Inspection
FY 2013-14 and FY 2014-15 Budget

## RECORDS MANAGEMENT DIVISION <br> FY 2013-14-15 BUDGET JUSTIFICATIONS

During FY 2011-2012 the Records Management Division (RMD) did not meet the MBO of producing 75\% of 3R Reports and Records requests within 5 business days due to short-staffing and increasing workload demands. RMD,

- Produced a total of 7,297 3R Reports; of these,
- $\mathbf{2 4 . 8 \%}$ or 1,807 were processed within 5 business days
- $\mathbf{2 3 . 8} \%$ or 1,736 were processed within 6-7 business days
- $\mathbf{3 3 . 7 \%}$ or $\mathbf{2 , 4 6 2}$ were processed $8-12$ business days
- $\mathbf{1 7 . 7 \%}$ or 1,292 were processed over 12 business days
- Processed a total of 10,216 Record Requests; of these,
- 3,911 were processed over-the-counter
- 77 were subpoenas
- 6,228 requests were accepted for research and processing:
- $66 \%$ or 4,113 were processed within business 5 days
- $16.5 \%$ or 1,025 were processed within 6-7 days
- $16.2 \%$ or 1,012 were processed within $8-12$ business days
- $1.3 \%$ or 78 were processed over 12 days

These $\mathbf{1 0 , 2 1 6}$ records requests produced a total of $\mathbf{2 3 5 , 1 2 9}$ records; including:

- 73,563 copies of records printed
- 56,010 copies of aperture cards permits, job cards, CFCs
- 17,553 copies of plans
- 161,566 records researched for customer viewing
- 16,644 permit aperture cards
- 1,089 diazo cards created for viewing plans
- 5,556 35 mm microfilm rolls
- 6,699 divisions apps
- 113,828 PaperVision Permits
- 15,853 PaperVision Plans
- 557 File Transfer Protocol (FTP)
- Customer Service:
- Answered $\mathbf{1 6 , 2 4 0}$ phone calls.
- Assisted 10,523 customers at the RMD information counter.
- Processed 712 customer service emails.
- Processed 969311 Service requests and closed 928311 service requests.
- Received 978 requests for duplication of official building plans; for these we processed the following certified letters requesting authorization:
- $\mathbf{7 5 5}$ letters to Property Owners
- 1,167 letters to Design Professionals

Records Management Division

> 1660 Mission Street, $4^{\text {th }}$ Floor - San Francisco CA 94103
> Office (415) 558-6080 - FAX (415) 558-6402
> www.sfdbi.org

- Completed prepping, back-prepping, scanning and indexing of :
- Job Cards
- CFCs
- Building Permits
2010 to 2012
2010 to 2012
December 2010 - June 2011

This task was first reduced from three staff one hour a day to one staff one hour a day, and currently it has been completely stopped due to short-staff and workload demands.

- Quality controlled and approved 18 projects scanned and indexed by a vendor, January 2011 November 2011, including;
- regular issued
- 15-day hold, and
- cancelled and withdrawn plans

This task was first reduced from five staff one hour a day to none. QCing is being performed by one staff of the Initial Permit Review Division and RMD's Division Manager.

Additional duties and responsibilities:

- January 3, 2011, began generating daily regular issued permit reports and QCing each issued set of plans against the PTS report for quality and accuracy. This function added an average of 1.5 hours per day to the daily operation. This new assignment was due to the inaccuracy of issued plans sent to the vendor for scanning and indexing with incorrect permit application numbers, addresses, and missing approval stamps.
- February 1, 2011, the Division implemented an Official Duplication of Plans process as required by State law. This new process,
- Increased counter staff to an average of 20 minutes per customer. We get an average of 60 customers a day with the highest number of customers of 102 in one day.
- Added administrative duties with the processing of the certified letters.
- Tracking increased on the weekly report.
- Daily maintenance of letters waiting for owner and design professional response.
- September 1, 2011, the Division was made responsible of the15-day hold plans viewing process and the collection of cancelled and withdrawn plans to consolidate plans viewing into one central area and division.
- This new process required the combination of regular issued, 15-day hold, cancelled, and withdrawn plans which increased the number of plans to be matched against the daily PTS generated report .

The above three tasks were added to our daily operation with no increase in staff. There were three promotions within the Division but no increase in staffing due to other departmental staffing needs. Since 2011,

- Three people were assigned to the Division who did not pass probation.
- March 2011, we lost one Permanent 1406 to a departmental promotion, that position has not been replaced.
- August 22, 2011, we got a PCS 1406 who is currently on probation.
- August 22, 2011, a PCS position that belonged and was assigned to RMD was reassigned and the new hire was assigned to the Director's Office.
- September 6, 2011, we got a TEMP 1406.
- December 12, 2011, we lost a Permanent Exempt 1408 to another City department for a promotion; we are waiting to this position to be replaced as well.
- August 2012, a permanent 1408 was reassigned to RMD, still in training.
- October 12, 2012, a permanent 1406 went on a 5 -month maternity leave.
- October 29, 2012, a temporary 1842, Management Assistant was assigned to RMD, still in training.
- November 2012, a permanent 1406 was assigned to RMD, on probation through February 2013.

Approval of the following budget requests is necessary to meet production goals of 3R Reports and reproduction of records and to provide excellent customer service.

## 001 - Permanent Salaries

## Current Staffing - One (1):

Due to short-staffing and workload demands, we ended FY 2011-12 with a backlog throughout the Division, including records requests, 3R production, in-house scanning (job cards, certificates of final completion, permit applications), plans QC, document prepping and back-prepping. In addition and due to the continuous backlog, in July 2012 we stopped Qcing plans scanned/indexed by the vendor and in August 2012, stopped scanning of job cards, certificates of final completion, and permit applications.

The Qcing function has been temporarily being performed by other departmental staff; with their assistance we have been able to complete five months of plans quality control, a task that could not be performed by RMD staff. The scanning of permit applications has been temporarily assigned to the scanning vendor. The scanning of job cards and certificates of final completely still on hold due to production demands.

RMD has been on overtime since March of 2011 and for FY 2012, have already used 175 hours; this total does not include over 250 overtime hours worked by other DBI staff performing RMD functions. With the current staffing levels it is nearly impossible to keep up with the day-to-day operation. Division Supervisors and Manager are required to do daily production along with administrative and supervisory duties. In addition, the Supervisors serve as the first back-up to the counter operation to allow remaining staff to concentrate on production.

A permanent full time 1408 employee will help the Division meet the established goals, maintain a reasonable scanning and QCing schedule, will allow current staff to focus on performing the complex records research, relieve current staff of continuous counter assistance, provide for staff time off, training, and special projects, etc.

We currently have a 1406 and a1842 assigned to RMD; these positions need to be replaced with Permanent 1408 Principal Clerks.

## 011 - Overtime

Records Management is charged with production $75 \%$ of all 3 R and Records requests within 5 business days. Our operation used approximately 125 hours of OT during April, May, and July 2011 to assist with the day-to-day operation and to minimally meet the established MBOs. OT provides temporary relief; unfortunately, with the current workload demand sof $3 R$ and Records, we have not met the established MBO's for over a year. For FY 2012-13, RMD has used approximately 175 OT hours to keep up with the current workload, not exceed the 15-day records turnaround and maintain a 5 -day 3R turnaround.

In addition, often times we receive requests from the City Attorney's Office and The SFPD Swat Team which are needed with a short notice; therefore, these requests are completed using overtime hours.

## 022 - Training

Excel II-1408-Principal Clerks, 1752 - Sr. Microfilm Technicians, 1406 - Sr. Clerks
Staff uses Excel to develop and maintain all production reports such as Weekly, Monthly, Quarterly and Annual Reports for 3R Reports, Records requests, customers assisted, and number of phone calls answered. These workshops will enhance staff skills by showing different and advanced functions to develop spreadsheets, enter formulas, create charts, design and work with customized reports. RMD staff will learn to sort cells, filter data, link multiple spreadsheets, etc.

Achieving Your Highest Priorities - 1408 - Principal Clerks, 1752 - Sr. Microfilm Technicians, 1406 - Sr. Clerks.

We received positive feedback from staff that has previously taken this seminar. In this workshop, staff will learn techniques to effectively set priorities, organize workload demands, and meet deadlines. It will provide staff with a planning system to assist them in meeting and managing goals both in the work place and in their personal lives.

Organizing Your Work and Managing Your Time-1410 - Chief Clerk, 1408 - Principal Clerks, 1752 - Sr. Microfilm Technicians, 1406 - Sr. Clerks.

We received positive feedback from staff that has previously taken this seminar. In this workshop, staff will learn techniques to effectively set priorities, organize workload demands, and meet deadlines. It will provide staff with a planning system to assist them in meeting and managing goals both in the work place and in their personal lives.

Professional Development - Business Writing - 1842 - Management Assistant, 1426 - Sr. Clerk Typists, 1408 - Principal Clerks, 1406 - Sr. Clerk, 1752 - Sr. Microfilm Technicians, 1410 - Chief Clerk.

Staff has expressed desire to learn and expand their basic writing skills, memos, and reports. This workshop covers spelling, punctuation, grammar, style, and mechanics. RMD staff is required to interact with customers, staff, and vendors via email properly.

## 24-Plus For Experienced Supervisors and Managers - 11410 Chief Clerk.

This training will help enhance supervisory skills as well as teach new strategies and tips on how to manage an ever evolving workplace. Tips on how to work, support, instruct, coach and discipline with staff who have different learning skills, how to manage an effective work environment and time, create and evaluate performance plan and appraisals reports, manage authority and responsibility, and utilize the progressive discipline process. These are skills that are not available in-house, but from experts from DHR.

## Managing Conflicts Constructively - 1406, 1426, 1408, 1410, 1752, 1842

Working in a team environment and having a high volume of customer contact creates conflicts between staff members. This seminar will provide staff with the tools to manage conflicts and perhaps prevent them or minimize them from happening and/or the impact of resolving a conflict with a non-productive approach.

## Serving the Difficult Customer - 1406, 1426, 1408, 1410, 1752, 1842

RMD staff is assigned to counter duties on weekly rotational basis; and on any given day they can assist from 50 to 90 customers a day. Many of our customers do not know exactly what type of records they are looking for; do not agree with our current 15-day turnaround, and do not understand the legal code requirements for the Duplication of Official Building Plans. When provided with other than the answer they are looking for; customer often argues with staff. This seminar will show staff how to handle these situations without getting into a word match with the customer, how to stay calm; how to use the tools provided and when to call for back-up to avoid escalation of the problem.

## Building Exceptional Teams 2-1410 Chief Clerk

RMD is divided into two teams in which most of the staff works on the same tasks and are fully trained to perform each and every task within the Division. The ability to motivate and maintain a highly productive team that can handle the many changing tasks is one of the most important characteristics of a RMD supervisor. This seminar will provide them with additional tools to improve their teams; the ability to identify their strengths and weaknesses and utilize those in a more effective manner.

## Unleashing Talent-2-1410 Chief Clerk

All staff has strength and weakness, it is the supervisors responsibility to determine what those area and how to utilize such for the staff and the Department's benefit. Supervisors tend to rely on specific staff due to a personal comfort level or the inability to determine staff potential. This seminar will provide the skills to identify staff potential; motivate them, show them what they can do, build up confidence and at the end build a better, more cohesive and fair team.

## 027 - Professional and Specialized Services

## Current and On-Going

DBI currently has a contract with BMI Imaging Services to scan, index, and produce media for all issued plans. This is an on-going project. The end result of this process allows RMD staff to retrieve plans electronically without having to wind a microfilm roll into a machine, find the appropriate frame number, adjust, and print the image onto a diazo card, and finally print the image. The current contract is valid October 2012 through June 2017. For July - December 2012, RMD has approved invoices for a total of $\$ 84,290$ for the prepping, scanning, and indexing of 73,587 digital images.

## Conversion Project

DBI has approximately $1,200-16 \mathrm{~mm}$ and $3,500-35 \mathrm{~mm}$ microfilm rolls that need to be converted into digital images and indexed.

- 1,200 rolls of 16 mm microfilm containing job cards, certificates of final completion, permits and miscellaneous documents many of which date back mid 1930's. It is estimated that there are 2,500 frames per roll for a total of $3,000,000$ frames. In addition each roll is estimated to have 800 records to index for a total of 960,000 records.
- 3,500 rolls of 35 mm microfilm with plans dating back to 1940 's. Each of the rolls has approximately 500 frames per roll for a total of 1,750,000 frames. Each roll will have approximately 50 records to index for a total of 175,000 records.

The end result of this process will allow RMD staff to retrieve building permit applications, job cards, certificates of final completion, electrical permits, and plumbing permits, electronically without having to wind a microfilm roll into a machine, find the appropriate frame number, print the image onto a diazo card, and finally print the image.

The indexing process will be labor intensive since we cannot electronically merge the image with the permit record so staff must enter the 17 indexing fields per image, when available. If information such as permit application number, block, lot, address, etc. is not available on the image, staff will need to research that information using sources as aperture cards, Doc Index, Application Index, other Department resources, etc.

DBI also has approximately 250 boxes of old documents such as building permit applications, miscellaneous documents, job cards, certificates of final completion, that need to be converted into digital images. The end result of this process will allow RMD staff to make these records available to the public and retrieve the documents electronically.

## 029 - Maintenance Services Equipment

RMD produces 3 R Reports, provides customers with copies of plans, electrical and plumbing permits, building permit applications, job cards, certificates of final completion, miscellaneous documents; and provides viewing of records to customers, DBI staff, and other City agencies. This production requires the use of several microfilm machines, reader printers, viewers, and diazo
duplicating machine. Maintaining these machines is essential to RMD's day-to-day operation. Many of our microfilm machines are old and need to be replaced, but since we are working towards converting microfilm rolls and into scanned images, these are not scheduled to be replaced. Specifically, the diazo duplicator machine is not replaceable because there are no longer in production. If the conversion project takes longer than excepted; there might be a need to replace one or more of the current viewers, printers, scanners.

ARC service for immediate duplication of original plans for staff and public use. These plans are ones that in-house and not yet sent to the vendor. DBI does not have equipment to duplicate the plans in-house due to their larger size, from $11 \times 17$ to $36 \times 48$.

## 040 - Materials and Supplies

RMD is responsible for:

- Storage and reproduction of plans, applications, job cards, and miscellaneous documents; producing the Report of Residential Building Records and maintaining historical records.
- Quarterly and Annual Reports; and updating the Department's website.

In addition,

- RMD has implemented an in-house scanning project that require specific supplies for prepping documents to avoid jamming and produce quality images.
- RMD answers general questions for phone and walk-in inquiries.
- RMD uses envelopes of various sizes for mailing out records requests, invoices, 3R Reports. Pens for office use, customer to borrow to fill out forms (usually not returned). Copy handouts, bulletins, supply public kiosk, day-to-day operation. Diazo cards to copy images from film to print better quality plans, and customer viewing multiple copies of plans. Filing folders for filing system for 3R research, problem cases, in-house projects, records requests. Splice tabs to repair torn or broken 16 mm and 35 mm rolls of microfilm. Staples and tape for public and staff use for prepping and back-prepping permit applications and other documents for the in-house scanning project. Copy paper to print copies of plans, permit applications, job cards, 3R Reports, etc.
- Mailing labels are needed for the Official Plans Duplication process which requires us to send certified letters to property owners and design professional asking authorization to release copies of their plans to applicants.

The requested supplies will allow RMD to provide the above mentioned services.

## Indus Film / Aperture Card Readers.

To replace current 35 mm and aperture card viewers and to increase available viewers for customers. The current viewers are very old, outdated, and obsolete. Screens are hard to read, especially when using old rolls of film. Replacement parts are hard to find. With the Health and Safety Code Section 18950 requirement, the 35 mm viewers are in constant use and demand by customers. In addition, these new viewers combine the ability to view both; microfilm and aperture cards which will increase the table space for customers and perhaps allow us to increase the number of customer equipment.

# HOUSING INSPECTION SERVICES DIVISION JUSTIFICATION FOR BUDGET ADDITIONS/MODIFICATIONS <br> FY 2013-2014 \& FY 2014-2015 <br> EXHIBIT A 

## 038 CITY GRANT PROGRAM

EXISTING VENDOR: SAN FRANCISCO APARTMENT ASSOCIATION (SFAA)<br>REQUEST: $\$ 10,000$ Per Fiscal Year For Increased Service Demand

## SCOPE OF WORK:

The San Francisco Apartment Association(SFAA) provides counseling ((responds to phone and in-person queries ), education (workshops, flyers, and other educational presentations), mentoring, and mediation services citywide in various languages to residential landlords. These services are directly related to compliance and violation abatement of the San Francisco Housing Code as part of the Department's Code Enforcement Outreach Program CEOP.

The demand for these services has increased approximately twenty (20) percent due to (1) a swarm of residential foreclosures that have become vacant blighted buildings exposing the surrounding neighborhoods to unsafe conditions related to vacant buildings with fire hazards, lack of proper sanitation, rodent harborage, and sever dilapidate conditions; (2) an increased number of housing complaints received by the City through the 311 call center(1493) in the last calendar year), and (3) the SFAA is the sole vendor providing information and education to landlords regarding the property owner's responsibility to provide and sustain safe, functional and sanitary housing to tenants.

## BUDGET:

Ninety (90) percent of this $\$ 10,000$ will be applied to staffing to provide the services delineated above and ten (10) percent will be used for office supplies to support these efforts.

## 005 TEMPORARY SALARIES

## Hire (1) Prop F 6270 Housing Inspector (FY 2012-2013)

For FY 2012-2013, hire one (1) retired bilingual 6270 Housing Inspector to perform inspections in the Chinatown area and to assist with the field training of new Inspectors in the north east portion of the City. The candidate must have extensive experience with housing code violation abatement associated with the residential building inventory in this region of the City. The type of residential building construction, configuration, use, and density in the north east region of the city warrant additional field inspection staffing. This position would be in addition to the four (4) 6270 Housing Inspector current vacancies that will be filled in the $3^{\text {rd }}$ and $4^{\text {th }}$ quarters of FY 2012-2013 by permanent appointments.

Department of Building Inspection
FY 2013-14 and FY 2014-15 Budget

## MIS Budget 2013-14 - Justification

## 022 Training 2013-14

MIS is requesting funds to be budgeted for training expenses. . Training for FY13-14 includes advanced courses in reports design and development using Crystal reports, advanced level java scripting and Oracle 11 g database version - new features.

DBI is embarking on an Implementation of the new Permit and Project Tracking System. Maintaining configuration changes and to meet reporting needs, requires MIS staff to be trained on Java scripting, Crystal reports and the new Oracle Database 11g version. The training curriculum planned for FY13-14 is designed to enable staff to maintain and support the needs of the department.

## 027 Professional Services 2013-14

MIS is requesting funds to be budgeted for professional services to provide for specialized IT engineering. These consultants would provide services in areas such as City's network FibreWAN and firewall configuration where MIS does not have the necessary access to support or make desired changes. Examples of areas can include Internet/Intranet applications \& communications, systems design, database consulting, network design \& security, etc. These services will be used either to augment existing staff with additional resources, provide project consultation and systems analyses, or to implement project based scopes of work.

DBI is undertaking the project of replacing existing end-of-life server and network equipment to maintain business continuity, along with other departments in the mission corridor (Planning and Human Services Agency). Upon completion of the first phase of the project, installation of the hardware and software and migration of DBI data are necessary for the timely completion of the remainder of the phases on the project. Professional services will be required from the proprietary hardware and software vendors.
