The background of the slide is a photograph of the Golden Gate Bridge in San Francisco. The bridge's iconic red towers and suspension cables are visible on the left side. In the foreground, there is a large, abstract red sculpture made of thick metal beams, resembling a stylized 'X' or a bridge structure. To the right, there are palm trees and a white building with a red roof. The sky is clear and blue.

# The 3 Fundamentals of Emergency Preparedness

- 1 Make your emergency plan.
- 2 Gather and organize extra supplies.
- 3 Get connected to emergency alerts.

# Emergency Planning Basics

- 1 Select a few of your nearest and dearest. Who's the group you'll want to get in touch with if something happens?
- 2 Pick an out of state contact. Who can serve as a hub for information, if you can't reach others in your local area?
- 3 Agree on a place to meet. How about a park? A landmark? Don't choose a house—in case it's inaccessible.

## 5 simple steps to be more prepared today

**1** Identify an out of area contact.

**2** Know your connections—who will you rely on and who will rely on you?

**3** Establish a meeting place for you and your connections.

**4** Take stock of the things you use every day that also could be useful in an emergency. These are the makings of disaster supplies.

**5** Talk about what you've done to be prepared with the people you care about.
