Briefing/Workshop: Mandatory Soft Story Retrofit Ordinance
Oct 28, 2013

Customers have requested names and contact information for qualified professionals who will provide bids and/or perform work on soft story retrofit work projects. DBI provides the following partial list as a courtesy. This does not constitute any endorsement whatsoever by DBI for these professionals. In addition, DBI and the Earthquake Safety Implementation Program (ESIP) encourage all property owners to contact the local American Institute of Architects (AIA) as well as the Structural Engineers Association of Northern California (SEAONC) for additional lists of qualified professionals. As a rule of practice, always obtain several bids for the kind of work involved in a soft story retrofit. The listed professionals should contact DBI Soft Story Program at 415-558-6699 or email softstory@sfgov.org to make any necessary corrections to this list.
