

TYPICAL MULTI UNIT DWELLING GAS METER INSTALLATION

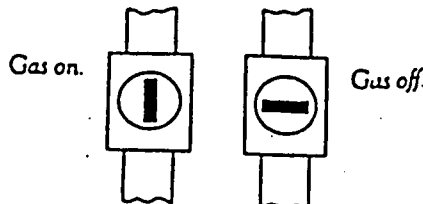

If You Smell Gas

Your gas can be turned off at the main shut-off valve next to your gas meter. Using a wrench or other suitable tool, give the valve a quarter turn in either direction; the valve is closed when the tang (the part you put the wrench on) is crosswise to the pipe. (See illustration.) To reinstitute gas service, call PG&E or a qualified contractor.

SHUTOFF LOCATION:

Posted pursuant to Section 712
(Ordinance no. 361-90) of the
San Francisco Housing Code.
