Protest of Establishment of Pre-Qualified Consultant List

Within five (5) working days of the City's issuance of a notice of intent to establish a pre-qualified consultant list, any consultant firm that has submitted a responsive response and believes that the City has incorrectly selected another Respondent for pre-qualification may submit a written notice of protest. Such notice of protest must be received by the City on or before the fifth (5th) working day after the City's issuance of the notice of intent to establish a pre-qualified consultant list.

Protests on the intended establishment of the Pre-Qualified Consultant list must be received by the Department of Building Inspection no later than 5pm on **Wednesday, March 7, 2018**.

The notice of protest must include a written statement specifying in detail each and every one of the grounds asserted for the protest. The protest must be signed by an individual authorized to represent the Respondent, and must cite the law, rule, local ordinance, procedure or RFQ provision on which the

protest is based. In addition, the protestor must specify facts and evidence sufficient for the City to determine the validity of the protest.

Delivery of Protests

All protests must be received by the specified date and time deadline. If a protest is mailed, the protestor bears the risk of non-delivery within the deadlines specified herein.
